

Steps to create your own Salesforce Account

1. Go to <https://developer.salesforce.com/signup> (Manually)
- 2.

The screenshot shows the Salesforce Developer Edition signup page in a web browser. The page has a blue header with the text "Build enterprise-quality apps fast and get hands-on with Agentforce and Data Cloud." and "Sign up for your Developer Edition." Below this, there are five bullet points: "Build apps fast with drag-and-drop tools", "Go further with Apex code", "Build AI agents with Agentforce", "Harmonize your data with Data Cloud", "Ground Agentforce with structured and unstructured data", and "Integrate with anything using APIs". To the right of these points is a "Steps" section with "1. Select Type". Below the steps is a "Sign up for your Developer Edition" form. The form includes fields for "First name", "Last name", "Job title", "Company", "Country/region" (with a dropdown menu showing "India"), and "Work email". There is a checkbox for "I agree to the Main Services Agreement - Developer Services and Salesforce Program Agreement". Below the checkbox, there is a paragraph of text: "Your free trial may be provisioned on or migrated to Hyperforce, Salesforce's public cloud Infrastructure. I acknowledge, as described in the Developer Documentation: (1) the Developer Edition Includes autonomous and other generative AI features; and (2) Salesforce may limit use of those features and the org, and may terminate any org that has been inactive for 45 days. We value your privacy. To learn more, visit our Privacy Statement." At the bottom of the form is a blue "Sign me up" button. The browser's address bar shows "salesforce.com/form/developer-signup/?d=pb". The Windows taskbar is visible at the bottom of the screen.

3. Enter first name and last name
4. Select the Job Title
5. Enter the company name
6. Select country as India
7. Enter the Email address
Example: `playwright2025.testleaf@gmail.com`
8. Click on I agree checkbox to accept the Terms and Conditions
9. Click Sign Me Up

Almost there, hello!
Check your email.

You'll receive a confirmation email soon. If you don't see the email, check your spam folder.

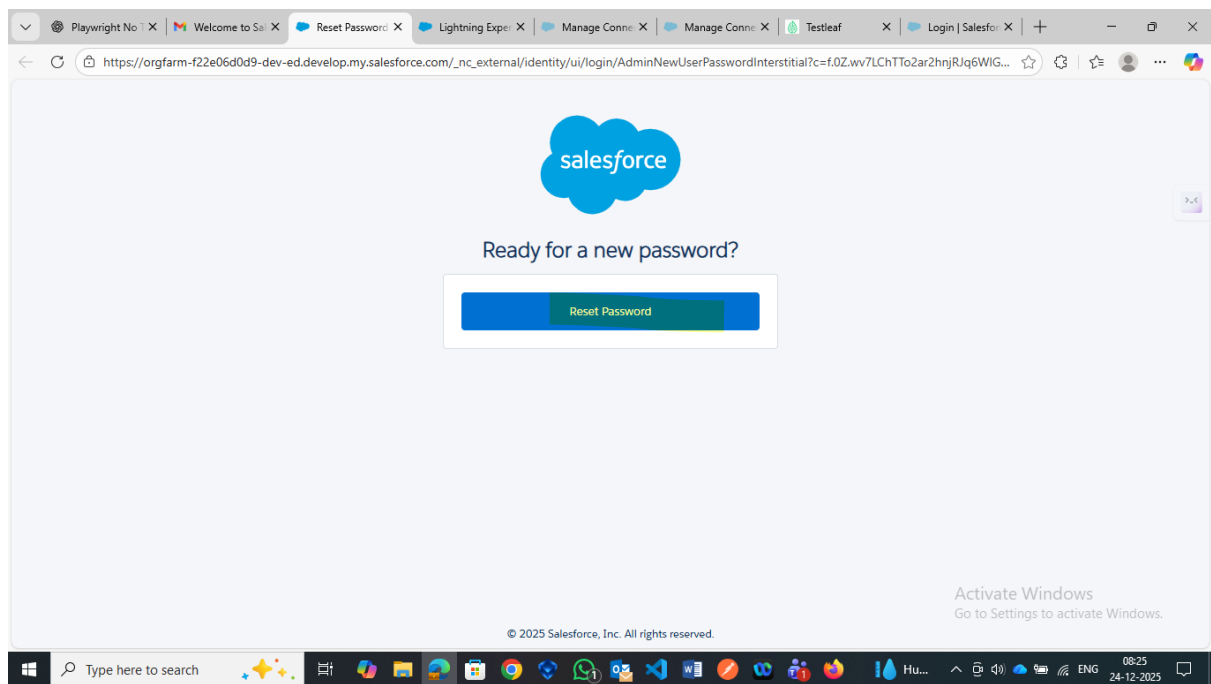

If we're getting a lot of signups at once, it can take a while for us to set up your Developer Edition. We'll send another email when it's ready.

Follow guided steps to finish setting it up, and use in-app guidance to learn Agentforce.

Activate Windows
Go to Settings to activate Windows.

10. The link will direct you to the Set Password page

11. Set password (follow the requirements mentioned)

12. After password reset, you can login to new salesforce account and verify.
